▶ WHO ARE WE

With a vision to bestow a more professional and efficacious work environment, Polar Smith is a brand that engineers customized merchandise for the corporate world.

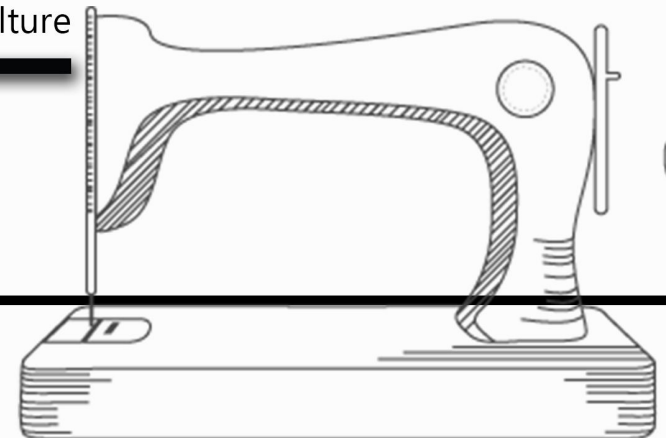

We delve into manifesting supreme work culture for the brands to own a signature clothing style. De-route the conventional norm, as we provide for a sequestered style statement for a brand you have been trying to build!

WHAT WE DO

- Design the work uniforms, jackets, bags and other products for your brand
- Our experts craft bespoke customized apparels for employees, staffs and workers
- Our diligent understanding of enterprise business backed by experts provides :
 - Quality engineering of brand logo, apparels and accessories
 - Sourcing of premium products with specialized insights
 - Helping hand to create brand image and work culture

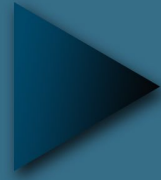

BUSINESS PROFILE

- We help our clients find the right suite of design for merchandise. Right from the sourcing of fabric to brainstorming technology use, our quarry rests with the feel of the brand.
- Depending on the magnitude of work, we pick up the best of sources to craft an embedded masterpiece that brings a smile to your face. We begin by closing the deal on a budget and the requirements put in by you.
- The orders drawn are processed as per the demands of the client. The investment starts from the amount of your choice and we help you pick just the right investment requirement to turn your brand image around.
- Once the outlines are approved, we begin manufacturing. The merchandise is brought to life with quality check and standard checks.

The total gestation period is 90 days for processing the orders and making them available at your enterprise.

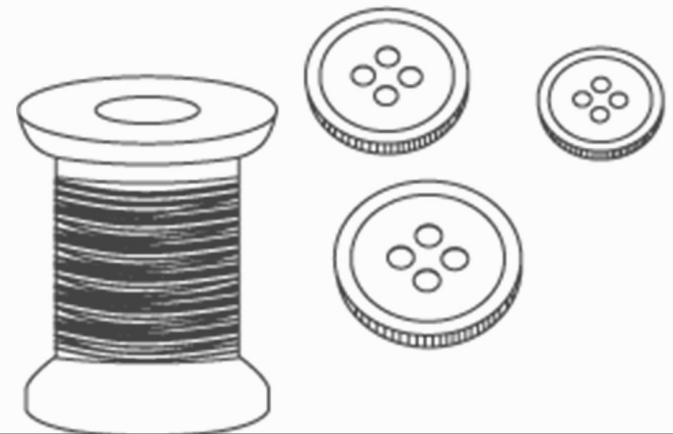

HOW WE WORK

We begin by closing the deal on a budget and the requirements put in by you. The orders drawn are processed as per the demands of the client. The investment starts from the amount of your choice and we help you pick just the right investment requirement to turn your brand image around.

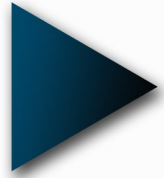

Subsequently, we begin with creative ideas, design symmetry and technology to find the right craft of the product. Once the outlines are approved we begin manufacturing. The merchandise is brought to life with quality check and standard checks.

OUR PRODUCTS

- T-shirts
- Uniforms
- Jackets
- Polo Shirts
- Caps
- Bags

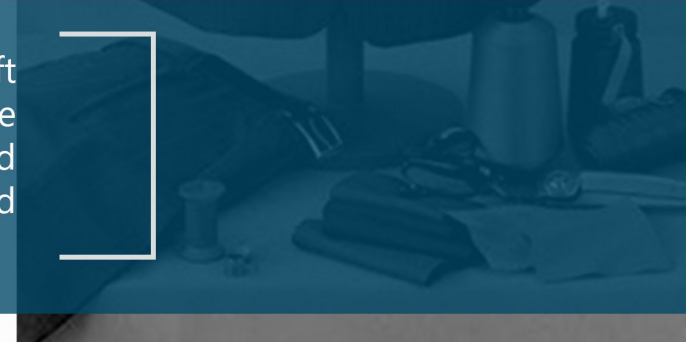

TECHNOLOGIES USED

We have two state-of-the-art workstations exclusively designed for carrying on the production of the merchandise. We employ different methods of printing to suit the needs of the clients.

This includes Screen printing, Digital printing, Direct to Garment (DTG) printing, and Print & Cut.

The Direct to Garment printing technology has been introduced after successfully importing a highly equipped printing machine from USA.

We have exclusive equipments to endlessly design and craft new designs as per the standards of the industry. All of the designing, cutting, stitching, printing and packaging is carried on in the in-house workstation under supervision of trained designers and quality inspectors.

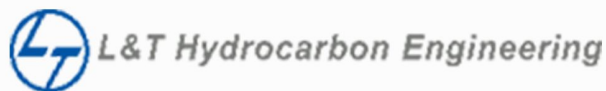

DESIGNING AND MANUFACTURING

- Procuring the raw materials
- Designing and creating
- Cutting, stitching and manufacturing of the products
- Printing of the logos and emblems on the products
- Packaging and delivery

▶ OUR CLIENTS

We've garnered a sound client base by synergizing a philosophy of mutual trust and respect. Our idea is to bring a true partnership that manifests ideas and information for the designing of the products. Through deep understanding and seamless work environment, we've built long term relationships with some of the distinguished companies.
